The Power Behind Organo® FENIX GX

Packed with nature’s best adaptogens and brain-boosting compounds, FENIX GX supports cognitive wellness so you stay focused, calm, and ready for whatever the day brings. Here’s the science behind the magic:

- **L-Theanine:** Naturally found in tea leaves, L-Theanine is the ultimate “zen” ingredient. It promotes relaxation and focus without drowsiness by helping lower cortisol levels—perfect for staying “locked in” during a stressful workday.
- **Lion’s Mane Mushroom:** This legendary superfood is a favorite among wellness enthusiasts. Research suggests it supports cognitive function and brain cell health, while also providing a boost to your gut health and antioxidant defenses.

Meet the New Flavors

We’ve captured the essence of energy with our two new citrus-inspired profiles:

Pineapple Lemon

A tropical, zesty fusion that wakes up your palate and your mind.

Orange

Bright, classic, and refreshing—the perfect burst of sunshine for your afternoon slump.

With **only two gummies a day**, it’s the simplest (and most refreshing) habit you’ll ever start.

Who is FENIX GX For?
